Ground System Architectures Workshop 2016

Dr. Wanda Austin
President and CEO
The Aerospace Corporation

February 29, 2016

GSAW Advisory Board

Dr. Wanda Austin
President and CEO
The Aerospace Corporation

Jerome Bennett
Chief of the Software Engineering Division
Goddard Space Flight Center
National Aeronautics and Space Administration

Dr. Barry Boehm
Director, USC Center for Systems and Software
Engineering and Chief Scientist, DoD-Stevens-USC
Center for Systems Engineering

Andrew Dowen
(represented by **Thom McVittie**)
Program Manager
Multimission Ground Systems and Services
Program Office; Jet Propulsion Laboratory

Frank Konieczny
Chief Technology Officer, Office of Information
Dominance; Chief Information Officer, Office of the
Secretary of the Air Force

Dr. Paul Nielsen
Director and CEO
Software Engineering Institute

Nestor Peccia
Head of Data Systems Infrastructure Division
European Space Agency
European Space Operations Center

Steven R. Petersen
Director, Office of Satellite Ground Services
National Environmental Satellite Data and
Information Service
National Oceanic and Atmospheric Administration

Dan Smith
Ground Systems Manager
Goddard Space Flight Center
National Aeronautics and Space Administration

Dr. Richard Taylor
Director, Institute for Software Research
University of California, Irvine

Embracing the Rapid Rate of Change

We have to keep pace with these changes, but how?

- How do you plan for the future when the rate of change is faster than the acquisition cycle?

- How do you build a system to leverage state of the art technology?

- What about the users? How can they know what they need?

- What should a "baseline" system look like? How can we plan to evolve it?
